

Oct 23, 1962: US announced USSR had started building offensive missile bases in Cuba.

Pres. Kennedy ordered US naval + air forces to establish immediate "quarantine" (partial blockade) of Cuba to prevent further delivery of offensive weapons aboard Soviet-bloc or any other ships.

USSR said US action could end in thermonuclear war; USSR said that Soviet ships would not submit to search.

UN Security Council convened; Acting Secy. Gen. A Thant made place for negotiation.

Kennedy charged Soviet-Cuban action had upset previous status quo which had long existed between East + West in regard to nuclear weapons.
